## Where On Earth? Geography Without the Boring Bits

James Doyle

### Keynote

***Where on Earth?* is jam-packed with all of geography's greatest hits, with all the boring bits taken out.**

### Description

***Where on Earth?* is jam-packed with all of geography's greatest hits, with all the boring bits taken out.**

From how to make a raindrops to cool ways to remember the world's wonderful waterfalls, longest rivers and most desolate deserts - plus all the countries and continents in which these fantastic features are found.

The perfect learning companion to help all school children get to grips with discovering the world around them.

### Sales Points

- From lava-spewing volcanoes to cool ways to remember the world's highest mountains, longest rivers and most desolate deserts, *Where on Earth?* is jam-packed with all of geography's greatest hits, with all the boring bits taken out
- This book is the perfect learning companion to help all school children get to grips with discovering the world around them
- A follow-up to the bestselling *Thirty Days Has September* (over 90,000 copies sold), and *Off With Their Heads!* (over 20,000 copies sold)
- Part of the 'Buster Reference', a cool and informative series of non-fiction books that make learning fun. Please note that this title, featuring a gorgeous new cover design, is a re-issue of the 2011 edition

### Author Biography

James Doyle is the author of 10 books, including children's fiction and a range of wacky and informative geography and science-based books.
